- Excel
- Object Oriented
- Programming
- Web Design
- Back End Devlopment
- Problem solving
- Strong Communication
- Team Player

PROJECTS

- Gems and Jewellery Export Promotional Council (GJEPC) :- https://gjepc.org/
- TRACTOR KARVAN :- https://tractorkarvan.com/
- SILVERBROOK :- https://www.silverbrookcenter.com/
- Insight :- https://console.insyghts.in/

EDUCATION

BACHELOR OF SCIENCE INFORMATION TECHNOLOGY   2023

- Thakur Ramnarayan College of arts & Commerce (Mumbai University)

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Gray Matrix   April 2024 - Present

- Developed and maintained dynamic websites using Laravel Lumen for backend services, ensuring efficient RESTful API integration and data management.
- Utilized React.js to create responsive and interactive user interfaces, improving overall user experience and engagement.
- Collaborated with cross-functional teams to gather requirements, design software architecture, and implement features based on user feedback.
- Participated in Agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives to drive project success.
- Managed version control using Git, ensuring smooth collaboration and code integration among team members.

Software Engineer

Crayon Infotech   June 2023 - April 2024

- Developed and maintained robust web applications using PHP and Laravel, improving application performance and scalability.
- Designed and implemented RESTful APIs in PHP for seamless integration with frontend applications and third-party services.
- Designed and implemented RESTful APIs in PHP for seamless integration with frontend applications and third-party services.
- Leveraged PHP frameworks such as Symfony and CodeIgniter to streamline development processes and reduce project timelines

SOFTWARE ENGINEER INTERN

Infoway   07/22 - 09/22

- Interned as a PHP Developer, proficient in building multiple modules using the renowned CodeIgniter framework.
- Through this experience, I gained invaluable insights into effectively managing the challenges faced by newcomers, enabling me to thrive under pressure. My primary focus involved developing a construction website that streamlined the development process for builders, fostering a deeper understanding of the intricacies of the industry."
